

Science With Sheckells

Wednesday, February 17, 2016

Children grades K - 2 meet from 1:30 to 3:00 p.m.

Children grades 3 - 5 meet from 3:00 to 4:30 p.m.

Hone your engineering skills with local 5th grade teacher, Bryan Sheckells!

from Museum of Science curriculum:

Oh no! India and Jacob accidentally brought a cane toad from Australia to New Zealand. Cane toads are an invasive species that hurt native species in Australia—and they could do the same in New Zealand. Help India and Jacob engineer a humane trap to catch the toad.

Students will work with recycled and household items to engineer a solution to the problem of invasive species removal.

This program is offered free of charge but pre-registration is required.
