STEAM is our theme! **Science, Technology, Engineering, the Arts, and Math.** Join Lisa Cheney & Susie Lord for stories, songs, exploration, and art making. We will learn about building, colors, counting and more! We will make predictions and learn to think like a scientist. The program is designed for children ages 2-5, but younger and older siblings are welcome to attend and there will be developmentally appropriate exploration activities for all children, including crawling babies.
