

SYNC with Science!

Summer Science with Sheckells Elementary Age Science Programs Tuesdays, July 10, 17, 24, & 31

*Join 5th grade teacher, Bryan Sheckells for science fun.
Explore a different scientific endeavor each week with stories,
multi-media, experiments, games and more!*

Junior Edition: for children ages 6 to 8
Tuesdays, 2:00 - 3:00 p.m.

Senior Edition for children ages 9 to 12
Tuesdays, 3:00 - 4:00 p.m.

July 10: Moving Rocks

Explore plate tectonics and some of the changes they make to the Earth's surface, both fast and slow. Engineer a structure that can withstand an earthquake!

July 17: Fossil Rocks

Explore the creation of fossils by investigating how they are formed. Create your own fossils or rocks to be excavated in search of paleontological discoveries.

July 24: Flying Rocks

Examine the ways in which simple machines may be used to move objects as heavy as rocks...even tossing them across an expanse!

July 31: Space Rocks

How does gravity influence rocks that are found in space? Create an orbit designing device of your own.

Pre-registration is required. Sign up for one, two, three, or all four!
