

Sharknado Crashdown

This story starts out with Jonesy, the main guy, staring out into the ocean. He sees a bad guy in the distance on a ship. He sees the bad guy jump on a ladder and into the water, but he gets eaten by a shark. Jonesy gets into his boat and decides to sail it to the desert to visit his friend who is a doctor, his name is Dr. Mad. He creates sharks in his lab. He gets to the lab and all of a sudden, he sees a big tornado with sharks in it! And the shark goes flying everywhere! They came flying out of the tornado. The sharks tried to eat Dr. Mad, but he survived. Jonesy disappears and Dr. Mad did not even see him. Dr. Mad escapes and decides to travel to the city, hiding in his secret tower, but the tornado followed him! Another shark almost ate Dr. Mad so he jumped all the way down to the ocean and into a submarine. Unfortunately, this submarine had traps. Shark traps. It had spikes that were made of shark teeth. He jumped over the spikes, but then he saw a bad guy in the submarine who got eaten by a shark. He didn't know where Jonesy was. Dr. Mad thought Jonesy had been eaten by a shark, but it turns out he wasn't. He survived! Jonesy escaped and took a plane to China, and nobody was there. Not even any sharks or tornados.
