

## Ball

It was my turn to read my paragraph to the class. It was 1:56, almost time for math and then we go home. I'm bringing Thomas home with me and I am going to play ball. Time for math, Mr. M shouts. We get out our mathematics book and start dividing. We do math until 2:30 and we have 15 minutes to read a book. We read our books and did our math and now it is time to go home. I take Thomas home with me. We jump off the bus and run inside for snack. We have chips ahoy cookies and milk. Then we went outside and played ball. When I say ball I mean football. Back and forth back and forth we pass the ball quickly. It was 4:00 already. Time passes fast when you're having fun. We ran inside and got some water. Jugalugalug. We sipped it down until it was all gone. We ran upstairs to my room and we played jacks. Laughter filled the room. Thomas asked if we could ride our bikes to the park. I said sure as long as it is ok with my parents.

So we rode our bikes to the park. We climbed the tank as high as we could. We ran and ran and ran all the way across the tank and back and forth. Oh, by the way, we brought the ball to the park too. We decided to grab the ball and play pass. 1-2-3-4-5-6-7-8-9 catches in a row. We rode our bikes back home and it was almost time for Thomas to go. It was 6:00 and Thomas had to leave.

We sure had a fun afternoon.
