Please join us for a virtual screening of No Small Matter, the first feature documentary to explore the most overlooked, underestimated, and powerful force for change in America today: early childhood education. Through poignant stories and surprising humor, the film lays out the overwhelming evidence for the importance of the first five years, and reveals how our failure to act on that evidence has resulted in an everyday crisis for American families, and a slow-motion catastrophe for the country.

Following the film, we will have an engaging virtual discussion with Amy O'Leary. Ms. O'Leary is the Director of Early Education for All (EEA), a campaign of Strategies for Children, an advocacy group that works to ensure that Massachusetts invests the resources needed for all children to access high-quality early education programs. She is also currently on the NAEYC Governing Board.

This screening is funded by The Career Pathways grant at North Shore Community College and the regional Strong Start grant. This event was made possible by support from Early Childhood Partners CFCE, the HWRSD, The Hamilton-Wenham Mother's Club, Magical Beginnings Learning Tree, Magical Beginnings Essex Academy, and the Mass Audubon Ipswich River Nature Preschool.
